# TR10

*Instruction manual*

**1/10 SCALE RADIO CONTROL TOURING CAR**

### **Dimensions**

Length	.....	420mm
Width	.....	190mm
Height	.....	105mm

## Notiz

Danke das Sie sich für das Produkt TR10 Onroad Touring Car von Team C entschieden haben. Bitte nehmen Sie sich Zeit und lesen Sie sich die Anleitung genau durch.

Wir verbessern kontinuierlich unsere Produkte, so können die tatsächlichen Teile von den Abbildungen abweichen. Bitte schauen Sie zuerst auf unsere Homepage ob es neue Versionen von den Anleitungen oder neue Tips gibt, bevor Sie das zusammenbauen beginnen.

This manual is written in german language only. If you need a manual in your language please visit our website or contact your distributor!

Diese Anleitung wurde in deutscher Sprache verfasst. Sollten sie eine Anleitung in ihrer Sprache benötigen, besuchen sie unsere website oder kontaktieren sie ihren Vertriebsagenten.

Questo manuale è stato scritto in tedesco. Se avete bisogno del manuale nella tua lingua, si prega di visitare il nostro sito web o contattate il proprio distributore.

Este manual está escrito en aleman. Si necesita el manual en su idioma, por favor visite nuestro sitio web o contacte con su distribuidor.

Ce manuel est écrit en langue allemand. Si vous avez besoin d'un manuel dans votre langue s'il vous plaît visitez notre site web ou contactez votre distributeur!

Deze handleiding is geschreven in het duits taal beschikbaar. Als u een handleiding in uw eigen taal kunt u terecht op onze website of neem contact op met uw distributeur!

## Generelle Information

### **DAS IST KEIN SPIELZUG!**

Nicht geeignet für Kinder unter 14 Jahren ohne Aufsicht eines Erwachsenen.

Dies ist ein Hochleistungs Fahrzeug und darf aus Sicherheitsgründen nicht auf öffentlichen Straßen, in überfüllten Gebieten und umweltfreundlichen Bereichen oder in der Nähe von Kindern und Tieren gefahren werden.

Dieses Modell enthält rotierende Teile und Teile die während des Betriebes heiß werden können. Um Schäden und Verletzungen zu vermeiden ist Vorsicht beim Betrieb des Fahrzeuges geboten.

Dieses Produkt erfordert möglicherweise Reperatur- und Wartungsarbeiten.

Dieses Produkt ist durch Gewährleistung auf Material Defekte abgedeckt. Unfallschäden oder Wartungsschäden werden nicht von der Gewährleistung abgedeckt.

Batterien müssen in einwandfreiem Zustand sein und sollten immer voll geladen sein.

Nitro Modelle dürfen nur außerhalb von Gebäuden gefahren werden. Inhalieren von Auspuffabgasen kann zu gesundheitlichen Schäden führen.

Bewahren Sie Chemikalien unzugänglich von Kindern auf.

Stellen Sie sicher das Ihr Fahrzeug und das nötige Equipment in einwandfreiem Zustand ist, damit ein sicherer Betriebszustand gewährleistet ist und Sie Spaß am fahren haben.

## Notice

Thank you for purchasing this TR10 Onroad Touring Car by Team C.  
Please take some time to read through to get familiar with the shown steps.

We continually improve our products, due to that, actual parts may be different to the illustrations.  
Please check our website for the latest versions manuals and tips before you start to build this model.

This manual is written in English language only. If you need a manual in your language please visit our website or contact your distributor!

Diese Anleitung wurde in englischer Sprache verfasst. Sollten sie eine Anleitung in ihrer Sprache benötigen, besuchen sie unsere website oder kontaktieren sie ihren Vertriebsagenten.

## General Information

**THIS IS NOT A TOY!**

Not suitable for children under 14 years of age without adult supervision.

This is a high performance vehicle, for safety reason don't run on public streets, in crowded areas, environmentally areas or near children or animals.

This model contains rotating parts and parts which become hot during operation. Care must be taken to avoid damage or injuries.

This product may require some assembly and routine maintenance.

This product is covered by warranty based on material defectives. Crash damage or maintenance failures are not covered under warranty.

Batteries should be used in good condition only, and need to be fully charged.

Nitro models should be driven outside of buildings only. Inhaling exhaust gases could cause health damage.

Keep chemicals stored out of the range of small children.

Make sure your model and equipment is in perfect condition before you use it, to ensure safety and fun while driving.

## Allgemeine Grundlagen

### Ein bisschen Theorie ist notwendig!

Sie wollen nun endlich Ihr RC Car losknallen lassen - was müssen sie dabei beachten?

#### **Wichtig: Batterien oder Akkus der Fernsteuerung sollten immer voll geladen sein!**

Batterien oder Akkus nie ganz leer fahren. Warum? Es kann Ihnen dann passieren das die Fernsteuerung ausgeht, das Sendesignal zum Empfänger abreißt und Ihr RC Car sich selbst ständig macht - das kann teuer werden!

Fahrvorbereitung:

Achten Sie bitte immer darauf das Sie **zuerst die Fernsteuerung einschalten und dann erst den Fahrtenregler**. Bocken Sie das Fahrzeug auf, damit sich die Räder frei drehen können. Schalten Sie jetzt den Sender ein danach schalten Sie den Fahrtenregler ein. Überprüfen Sie jetzt die Fahrtauglichkeit der Lenkung links/rechts und Gas/Bremse.

Machen Sie jetzt zuerst ein paar langsame Runden, damit Sie sich mit dem Fahrzeug vertraut machen bevor Sie Vollgas geben. Denken Sie immer daran - **ein RC Car ist wirklich kein Spielzeug** - Sie können sich selbst und andere damit schwer verletzen.

Wenn Sie zuerst das Fahrzeug einschalten kann es passieren das der Empfänger ein anderes Signal empfängt und das Fahrzeug von alleine davon fährt - **und das kann sehr gefährlich und auch teuer werden!**

#### **Bitte beachten Sie immer - Don't drink and drive!**

Thema Wasser:

Es wird sicherlich vorkommen, dass Sie ab und zu bei Geländefahrten durch eine Pfütze fahren. Bedenken Sie hier, dass der Empfänger, der Motor und Akku gegen Feuchtigkeit sehr empfindlich sind. Fahren Sie nicht unnötig in große Pfützen und lassen Sie Ihr Fahrzeug bei starkem Regen zu Hause. Ein Wasserspritzer am falschen Ort und Sie können Ihre Ausfahrt beenden und sich schonmal überlegen bei welchem Modellbauhändler Sie Ersatzteile nachbestellen.

Thema Wiese:

Fahrten auf Wiesen mit langen Gräsern und Stopeln haben leider auch Ihre Tücken. Das Gras kann sich in den Antriebswellen verwickeln. Dies führt zu einer unnötigen und zusätzlichen Belastung des Motors und er kann überhitzen.

Thema Sprünge:

Das gehört klar dazu und genau deshalb kauft man sich einen Hyde oder Stoke usw. Ist für diese Fahrzeuge auch überhaupt kein Problem, wenn man nicht allzu leichtsinnig ans Werk geht. Damit Sie nach einem Sprung wieder auf den Rädern landen müssen Sie mit der Fernsteuerung arbeiten. Wenn Sie merken das die Nase vom Fahrzeug immer mehr in Richtung Boden schaut dann geben Sie Gas damit sich die Nase wieder anhebt. Wenn Sie Gas weg nehmen wird sich die Nase in Richtung Boden senken.

#### **Dies machen Sie aber bitte erst wenn Sie sich mit dem Fahrzeug vertraut gemacht haben und auf eigene Verantwortung!**

## General informations

### A bit of theory is necessary!

You want your RC car is finally going to pop - what they need to consider?

#### **Important: Batteries of the radio control should always be fully charged!**

Batteries never run completely discharged. Why? The radio control can assume, the transmission signal to the receiver breaks off and the car is driving without control.

Driving preparation:

#### **Please always make sure that you turn on the radio control first and then the esc.**

Jack up the car so the wheels can rotate freely. Now switch on the radio control and then the esc. Now check the roadworthiness of the steering left / right and throttle / brake.

Now take a few slow laps, so that you become familiar with the car before you open full throttle. Notice - **the RC car isn't a toy** - you can hurt yourself and other people.

When you first turn on the vehicle it may happen that the receiver is receiving another signal and the vehicle is driving off alone - **and this can be very dangerous and also expensive!**

#### **Pay attention - Don't drink and drive!**

Theme water:

It will certainly happen that you driving through a puddle. Remember here that the receiver, motor and battery are very sensitive. Don't drive through big puddles and when it's heavy rain let your car at home.

Theme grass:

The grass can become tangled in the drive shafts. This leads to an unnecessary and additional load on the motor and it can overheat.

Theme jumps:

This is exactly why you buy a Hyde or a Stoke. This is not a problem for those cars when you do it right.

If you notice that the nose of the car looks more and more towards the ground you step on the throttle so that the nose lifts again. When you take gas off, the nose will go downwards.

#### **Please do this when you are familiar with the car and at your own risk!**

Front diff upper position provides more steering but provides less front traction. Recommended for medium-high grip tracks and technical tracks.  
Vorderes Diff, obere Position sorgt für mehr Lenkung bietet aber weniger Haftung an der Vorderachse. Empfohlen für medium high Grip Strecken und technisch anspruchsvollen Strecken.

Front diff low position provides more front traction but makes the car more push on power. Recommended for low traction track.  
Vorderes Diff, untere Position sorgt für mehr Haftung an der Vorderachse aber dadurch schiebt das Auto mehr. Empfohlen für geringe Traktions Strecken.

**TO LOOSEN FRONT BELT:** Rotate both front nylon hubs in arrow direction A  
Vorderen Riemen lösen: Drehen Sie beide vorderen Nylon Hubs in Pfeilrichtung A

**TO TIGHTEN FRONT BELT:** Rotate both front nylon hubs in arrow direction B  
Vorderen Riemen straffen: Drehen Sie beide vorderen Nylon Hubs in Pfeilrichtung B

**INITIAL POSITION Ausgangslage**  
PLACE TAB IN THIS BOTTOM NOTCH Nase in die untere Kerbe einlegen

Rear diff upper position provides more on-power steering but makes the rear slightly more loose. Recommended for medium-high traction tracks.  
Hinteres Diff, obere Position bietet mehr On-Power Lenkung, macht aber das Heck rutschiger. Empfohlen für medium-high Strecken.

Rear diff lower position provides more rear traction, mainly on power traction and makes the car more stable in the chicanes, but makes the car push more on power. Recommended for low-medium traction.  
Hinteres Diff, untere Position bietet mehr Traktion an der Hinterachse, vor allem bei Power Traktion und macht in Schikanen das Auto stabiler. Empfohlen für low-medium Traktion.

**TO LOOSEN REAR BELT:** Rotate both rear nylon hubs in arrow direction A  
Hintere Riemen lösen: Drehen Sie beide hinteren Nylon Hubs in Pfeilrichtung A

**TO TIGHTEN REAR BELT:**  
Rotate both rear nylon hubs in arrow direction B  
Hintere Riemen straffen:  
Drehen Sie beide hinteren Nylon Hubs in Pfeilrichtung B

**Bag-F x4**

After the shock is assembled you have to set the shock rebound.  
Nach dem Zusammenbau müssen Sie den Dämpfer Rebound einstellen.

- ① Release the shock cap by 2-3 turns.  
Lösen Sie die Dämpferkappe mit 2-3 Umdrehungen.
- ② Push the shock shaft fully up .For the first time the extra oil will release through the hole in the alu cap-nut. Drücken Sie die Dämpferstange komplett nach oben. Beim ersten mal wird etwas Öl aus dem kleinen Loch entweichen.
- ③ Tighten the shock cup .When tightening the shock cup,extra oil will again release through the hole in the alu cap-nut.When tightening,the shock shaft will push out from the shock body. Dämpferkappe wieder festziehen. Wenn Sie die Dämpferkappe festziehen wird ein bisschen Öl wieder aus dem kleinen Loch austreten. Beim festziehen wird die Gewindestange wieder nach unten gedrückt.
